

## Directory of online resources

### Careers advice / work experience

CareerPilot is a fantastic free online resource which provides a whole range of career tools to help support you with your career path. It also has loads of quizzes and activities. You need to register with your name and email address to access some of these, but it is all free.

<https://careerpilot.org.uk/>

**Success at School** is also a great free resource offering CV writing tips, templates, as well as lots of career advice.

<https://successatschool.org/>

Investin are offering exciting virtual work experiences through a series of interactive simulations, seminars, case studies and Q&A sessions – click here for more info:

[https://investin.org/collections/all/15-18-years+live-online?sort\\_by>manual](https://investin.org/collections/all/15-18-years+live-online?sort_by>manual)

National Careers Week has a fantastic array of activities and home learning resources to explore your skills, employability, and different careers...click on the activities and home learning tiles to explore further...

<https://ncw2020.co.uk/>

icould has a great animal quiz for you to do to explore your strengths and personality, and interesting videos on different careers...

<https://icould.com/>

This government site allows you to search for apprenticeships in your area:

<https://www.findapprenticeship.service.gov.uk/apprenticeshipsearch>

This is another great resource offering lots of career advice with some great short videos from people currently working on the front line:

<https://successatschool.org/>

<https://successatschool.org/advice/98>

Click here to see lots of videos from real people doing real jobs:

<https://www.thewowshow.org/students/>

### Free online courses

There are loads of free online courses on a huge variety of topics supported by top universities that you can take part time, over a few weeks:

<https://www.futurelearn.com/courses>

<https://www.mooc.org/>

## Subject specific to your year

Loads of podcasts, videos, activities...just search for your year group and get learning!

<https://www.bbc.co.uk/bitesize>

## Learn to code

There are loads of online resources to teach yourself code. It may be aimed at kids, but Tynker is a good place to start (and currently free!). Girls Who Code is also great where you can join offers a community of peers and role models to build your confidence through online coding tutorials that deal with real-world problems.

<https://www.tynker.com/>

<https://girlswhocode.com/en-uk>

## Learn from the experts

Want to learn more about the Premier League or climate change? You can access free live streamed talks from some of the UK's top leading figures who will be sharing their own stories and expertise on a variety of subjects:

<https://www.speakersforschools.org/inspiration/vtalks/upcoming-vtalks/>

Or how about different people's career paths with advice on employability? Click here for free talks and lessons:

<https://learn.springpod.co.uk/#>

## You Tube

You Tube is a minefield of online learning, often delivered by well-known media personalities and celebrities...e.g. Dan Snow is running a History Hit Live series and Mylene Klass is running her online Music Klass for free...just search to see what you can find

## Mental Health support

**Youngminds** is a really helpful site with lots of ideas to support you with your mental health, as well as signposting you to further help if needed.

<https://youngminds.org.uk/find-help/>
